#8 NIH Syndrom

The Expert Beginner @ExpertBeginner1 · Feb 6

Any decent programmer comes up with their own design patterns instead of just plagiarizing the ones that everyone else uses.

#9 Scientific approach

Reginald Braithwaite @raganwald · Mar 19

We programmers are guided by untested hypothesis, rather than theory back by empirical evidence.

That is a polite way of saying, that despite our claimed logic, we are a superstitious bunch of savages.
